11. (currently amended) A method according to any of claims 8 to

10 claim 8, characterized in that the writing power of said beam is

varied for compensating heating up of the record carrier while

writing information on said optical record carrier.

REMARKS

The foregoing amendments to the claims were made solely to

avoid filing the claims in the multiple dependent form so as to

avoid the additional filing fee.

The claims were not amended in order to address issues of

patentability and Applicants respectfully reserve all rights they

may have under the Doctrine of Equivalents. Applicants furthermore

reserve their right to reintroduce subject matter deleted herein at

a later time during the prosecution of this application or

continuing applications.

Respectfully submitted,

-
